***Election/Restrictions***

- I. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. **Claims 1-31, 45-67, 81-85**, drawn to a method and system for creating a composite image, classified in class 382, subclass 284.
  - II. **Claims 32-44, 68-80**, drawn to a method and system for visually navigating a geographic area, classified in class 701, subclass 200.

**Inventions I and II** are related as **combination and subcombination**.

Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the **combination** as claimed does not require the particulars of the subcombination as claimed because claims 1, 4, 16, 45, 56 and 81, which are the broadest **combination** claims, do not give particulars of either claim 32 or claim 68, the broadest **subcombination** claims. The **subcombination** has separate utility such as **navigating** a geographic area.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Josephine E. Chang on 11/4/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
